## **Weiss Engineering Ltd. Embraces AMARRA**

*High Resolution Software / Hardware For Audio Enthusiasts*

Marin County, CA – April 28, 2009 — Weiss Engineering Ltd. in agreement with Sonic Studio, LLC, announced the availability of the Amarra Computer Music Player for its customers using the following Weiss FireWire™ enabled audio interfaces: Minerva, Vesta, DAC2, AF1, and ADC2-FW.

Amarra is a significant new development for high resolution audio reproduction from Sonic Studio, LLC. and is based on the same technologies used for over 20 years by major studios worldwide for music production. Jonathan Reichbach, President of Sonic Studio "We are excited to work with Weiss Engineering as the first certified partner for Amarra. We know Weiss customers will benefit once they hear how much better their high resolution music can sound."

Daniel Weiss, of Weiss Engineering Ltd., says "We are very happy to be able to offer our customers a truly high-end playback solution for Apple Macintosh Computers. Amarra is bit transparent, has a precision volume control and switches the sampling rate of the hardware depending on the sound file played. I couldn't wish for more."

Weiss customers interested in Amarra should contact Daniel Weiss directly at weiss@weiss.ch or +41 44 940 20 06.

Integration to be first shown in Munich Germany at the 126th Convention of the Audio Engineering Society May 8th, and then at the High-End show in Munich on May 21, 2009.

Questions and inquiries may also be directed to Sonic Studio at support@sonicstudio.com.
